

## **Herz Fig No 9330**

Thermostatic sensors to be liquid filled and have the ability to limit, or lock the set temperature with the pins supplied. Sensors shall be remote adjusting with 2, 5, 8 or 10m capillaries and have automatic frost protection. Sensor temperature range should be 6 – 28°C with frost set closure. The valve manufacturer shall provide a five year fully comprehensive warranty, covering parts, labour and consequential loss.
