

### **Herz Fig Nos 9860-10, 9861-10, 9861-40**

Thermostatic sensors to be liquid filled and be of a robust tamperproof design capable of withstanding considerable force and having no visible method of mounting or setting. Sensors to be available that have a turndown facility of up to 4°C, or up to 10°C, by means of a coin slot operation. Sensor head selection will be dependent on application. The special tightening tool, 9554-01, must be used and the sensors locked by means of the allen screws. The valve manufacturer shall provide a five year fully comprehensive warranty, covering parts, labour and consequential loss.
