

Herz Fig No 2682-1

WRAS approved Pressure Reducing Valves DN15 – DN50 shall be DZR Copper Alloy, have a drop tight seal and have a max inlet pressure of 16 bar and outlet pressure range 1.75 – 6 bar, rated PN16. There should be a setting dial indicator and a pressure gauge that can be fitted on either side of the valve showing outlet pressure. The valve shall have male union connections. The valve manufacturer shall provide a five year fully comprehensive warranty, covering parts, labour and consequential loss.
